Bank Statement Shows a Loss of

**Depression in Nearly All Stocks
Except Sugar.**

WALL STREET, Saturday, Sept. 10.—The bears were in full control at the Stock Exchange this morning, and they succeeded in depressing prices 3 per cent. in the case of Evansville & Terre Haute, 2½ in New Jersey Central, 1½ in Reading and ¾ to ¾ per cent. in other leading stocks.

Coroner Schultze, has a case on his hands which is likely to throw a great deal of light and not a little discredit upon the youthful doctors of the Chambers Street Hospital.

Frank Cowey, a boy of fifteen years, of 272 Henry street, died at that hospital Tuesday afternoon last, at 5 o'clock, while undergoing an operation, the amputation of the second finger of the right hand, under the supervision of House Surgeon William E. Stone. Cowey worked at 75 Gold street, for Edward F. Keating, on a pipe cutting machine and on that afternoon he caught his hand in the machinery, and smashed his finger so badly

Charles Cannon, a young man who worked alongside Cowey and who accompanied him

to the hospital, says that he believes Cowey died in the operating chair from an overdose of some anesthetic, either gas or ether. The

confidence. The condition of cotton is lower than in any September since 1882. American Sugar was conspicuous for strength, selling at 11 1/4 a 11 3/4, a 11 1/4. The gross earnings of the St. Paul road for the year ending Sept. 30, 1893, were \$1,000,000.

The bank statement was unfavorable, showing a loss in reserve of \$2,848,525, which reduces the amount held in excess of

legal requirements to \$4,781,975. There was a loss in cash of \$5,007,000, a contraction in loans of \$4,081,300 and a decrease in liabilities of \$8,870,300.

"My name is not Edwards. The young man bearing this name worked by me in America. I quarrelled with him, and in consequence, I hated him, and hated him."
